English

Summary

I finished high school in 2019 and attended a foreign IT college and studied English Language and Literature at the university at the same time. Unfortunately both university and college stopped because of the pandemic and the political issues. Instead of waiting for the schools to reopen, I have decided to work and gain experience for further improvements.

Education

2020 Dagon University, East Dagon

English Language and Literature

Undergraduate Student

Objective

I would like to apply a position where I can use and improve my skills and gain more experience for my future. I want to be part of the organization and can contribute to growth and strength.
